SUMMARY

Shopify developer at Axome, a Shopify agency in France and part of European Digital Group (EDG). Since 2023, worked with more than 120 brands, including Parfums de Marly, Withings and the 24 Hours of Le Mans, on custom themes, apps, Shopify Functions and checkout extensions. Lead Shopify developer on 4 recent builds: Withings, Nourrir comme la nature, Project X Paris and Sparwan. Day to day: Remix and React Router apps, Shopify Functions in TypeScript and Rust, checkout extensions, plus self-built Claude Code tooling to ship faster. Career changer: 5 years as an automotive refinish painter, then 2 French bachelor-level (EQF 6) qualifications in web and software development, with Le Wagon and OpenClassrooms.

PROFESSIONAL EXPERIENCE

Axome | Shopify agency, part of European Digital Group (EDG) | France

Shopify Developer | Feb 2024 – Present

Shopify Front-end Developer (apprenticeship) | Feb 2023 – Feb 2024

Case studies: fabienchareun.com/work

- **Withings** (lead developer, 2026): migrated from Magento to one multi-market Shopify Plus store (41 countries and territories, 14 languages) on a fully customized Horizon theme, shipped in under 4 months. 28 custom sections, product page rebuilt as 22 block types, service subscription as native nested cart lines, customer account connected to the Withings app dashboard, checkout app with 3 Functions and 2 checkout extensions.
- **Nourrir comme la nature** (lead developer, 2025 – 2026): Shopify Plus redesign with 3 account types (consumers, premium accounts, B2B clubs), each with its own prices, rules and journey. 8 Shopify Functions and 5 customer account extensions covered by 97 Vitest unit tests, 24 Shopify Flow workflows, Recharge subscription.
- **Project X Paris** (lead developer, 2025 – 2026): pixel-perfect build of a streetwear store that breaks e-commerce conventions (full-width pages, giant scrolling titles, product page in a floating panel). Fully custom Nosto collections, facets and recommendations in React for every language and market, with a native fallback; Black Friday gift Function with 9 Vitest unit tests.
- **Sparwan** (lead developer, 2026): industrial PC configurator as a Web Component (M.2 and PCI slot budget, stock limits, metaobjects); Cart Transform Function that turns the chassis line into one line per component, with currency conversion; B2B quote request. 2 Functions and 2 UI extensions, 20 Vitest unit tests.
- **Matière Première** (2024 – 2026): redesign, then build-your-own sample boxes (6 ml and 1.5 ml) with a vial picker and a Cart Transform Function that splits the box line into separate order lines, only the first one carrying the price; 3+1 and 5+1 free offers on the 1.5 ml box; free gifts and samples enforced by a discount Function, a cart validation and a checkout extension; PageSpeed 95 to 99 on desktop product pages.
- **Other stores**: lead developer on the Serge Blanco, Family 3.0 and Maison Captain redesigns (custom store locator with around 10,000 locations); Dumas Paris redesign tuned up to a PageSpeed score of 99; ongoing support for brands such as Parfums de Marly (4 stores), Baobab Collection and La Belle Boucle (over 100 tickets).
- **Claude Code tooling** (personal initiative, 2026): wrote 17 Claude Code tools (9 skills, 2 subagents, 6 hooks), including 3 of the 11 skills in the team's Claude Code plugin: a QA skill with one measured fix and one commit per piece of feedback, client documentation skills, a model and effort grid per agent, a hook that blocks any theme publish without approval.

Automotive Refinish Painter | Sep 2015 – Nov 2020

SKILLS

Shopify: Liquid, Online Store 2.0 and theme blocks, Shopify CLI, custom apps (Remix / React Router, Prisma, Polaris, App Bridge), Shopify Functions in TypeScript and Rust, Checkout, Customer Account and Admin UI extensions, theme app extensions, Admin GraphQL API, Section Rendering API, nested cart lines, selling plans (Recharge, Loop), API migrations, metafields and metaobjects, webhooks, Markets, Shopify Flow
